

Golden Eyes Wellness Exam: Get total eye care. Get peace of mind.

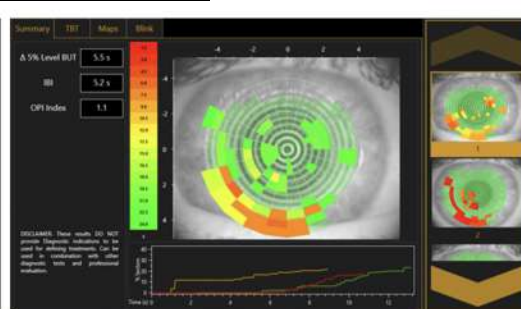

EyeScreen: Digital imaging of your retina, macula, blood vessels and optic nerve

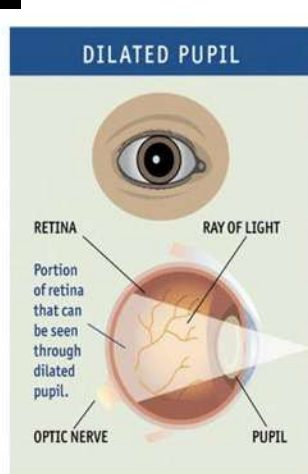

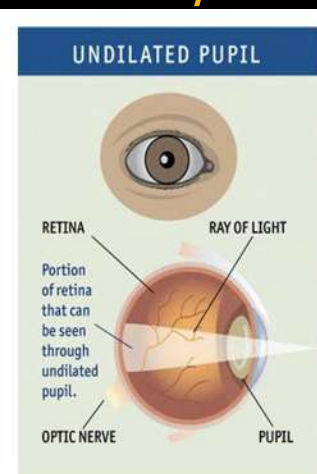

iWellness OCT: Digital light scan that allows us to see beneath the surface of your retina

Corneal Mapping & Dry Eye Screener: Digital mapping of the surface of your cornea

Dilated Eye Exam

Considered to be the most complete examination of your eyes, a wellness exam consists of an intensive eye evaluation and a close look at your retina. Our wellness exam will provide a broad and significant image of your eye health.

Using only very advanced, state-of-the-art technology, our results are highly accurate. This allows us to find and correctly treat any eye conditions as early as possible.

We will check carefully for conditions such as ocular disease, macular degeneration, diabetic retinopathy, signs of tumors or cancer, high blood pressure and more. The quality of our exam gives more information than any other diagnostic methods.

All of our quality, cutting-edge services will be used to provide a complete health report of your eyes and grant you the top eye care services that you require. At Golden Eyes Optometry, we will take care of your long-term vision health.

Fast, easy, and comfortable for patients of any age!
Provides your doctor with valuable information about the health of your most precious gift – your sight.

When eye disease is caught early on,
it can be treated quickly to ensure long-term vision health.
